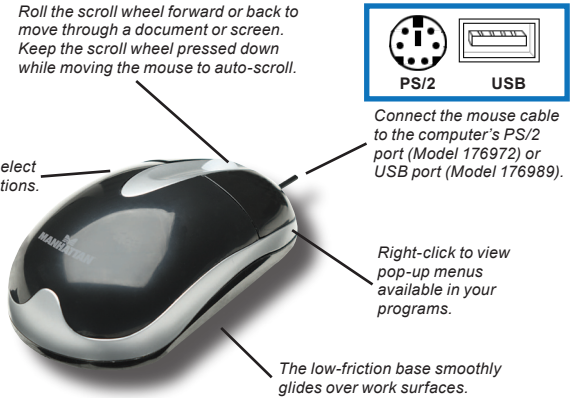
# MH3 CLASSIC OPTICAL DESKTOP MOUSE QUICK INSTALL GUIDE

MODELS 176972 & 176989

Thank you for your purchase of this MANHATTAN® MH3 Classic Optical Desktop Mouse, Model 176972 (PS/2) or 176989 (USB).

The compact, ambidextrous shape features a familiar three-button/scroll-wheel configuration that's ideal for daily computing needs; plus, Plug and Play installation and Windows 98SE/Me/2000/XP/Vista compatibility offer quick and easy operation.



Roll the scroll wheel forward or back to move through a document or screen. Keep the scroll wheel pressed down while moving the mouse to auto-scroll.
PS/2
USB
Connect the mouse cable to the computer's PS/2 port (Model 176972) or USB port (Model 176989).
Left-click to select on-screen options.
Right-click to view pop-up menus available in your programs.
The low-friction base smoothly glides over work surfaces.

**FCC Statement**

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception — which can be determined by turning the equipment off and then back on — the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your MANHATTAN dealer or an experienced radio/TV technician for help.

**Operating Tips**
- Do not use the mouse in conditions of extreme temperatures or excessive moisture, dust or dirt.
- The optical mouse will not work freely on a smooth desk, glass or any reflective surface or 3D mouse pad.
